OBJECTIVE:

Self-taught web developer with a high drive to learn everyday. With an emphasis on front-end development, I'm seeking the opportunity to join a team that will allow me to utilize my skill set.

EDUCATION:

University of Wisconsin-Madison

- Bachelor of Science, May 2013
- Major: Forest and Wildlife Ecology

RELATED EXPERIENCE:

Web Development

- Since October 2016, I've spent 40+ hours a week learning web development skills and concepts.
- Experience in building projects with HTML5, CSS3, Bootstrap, Sass, JavaScript, jQuery, React.js, D3.js, Webpack, Babel, and Git.
- Using Responsive Web Design to optimize projects across all screen sizes and platforms.
- Have worked through freeCodeCamp's curriculum at a consistent pace while utilizing other online resources such as codecademy, Team Treehouse, Coursera, edX, Udacity and more.
- Earned my front-end certificate through freeCodeCamp, while inching closer to more certificates everyday.
- Utilize Github to host my projects and obtain knowledge and experience with Git.

WORK EXPERIENCE:

Trademark Carpentry Southport, NC

June 2016 - March 2017

- Took a unique opportunity to learn carpentry skills that will be beneficial for a life-time.
- Put trim work in custom homes, built custom decor and closets.

United Parcel Service Eau Claire, WI

October 2013 - April 2016

- Continuously performed at an efficient level while maintaining a perfect driving and safety record.
- Kept to strict deadlines to excel in performance and service quality in a consistently fast paced environment.
- Developed professional relationships with customers and co-workers alike.

UW-Madison Memorial Union Catering Madison, WI

February 2012 - May 2013

- Student Supervisor leading multiple employees to successfully organize and provide professional catering services to a wide range of costumers and events.

COMMUNITY/EXTRACURRICULAR:

International Student Volunteers New Zealand

June 2010 - July 2010

A volunteer program that worked with organizations, locals and the native Maori on conservation efforts

- Volunteered alongside other students from around the world while isolated in a national park
- Planted around 1500 trees for an up and coming bird sanctuary
- Helped clear and re-establish Maori sacred lands, which included old burial grounds
- Educated elementary school children on conservation and helped them to revive their sanctuary
- Learned the basics of tracking and mapping invasive pests (weather kept us out of the field)

Volunteering

- Sigma Alpha Epsilon Fraternity, Member of the re-chartered Wisconsin Alpha chapter.

3 years

- St. Vincent De Paul - Received and organized donations

1 year

OTHER SKILLS:

- Proficient with Microsoft Office Suite
- Proficient with internet research through library and private databases
